Job # 34157

W/O # 25513436

June 6, 2020

Your new Pierce apparatus is now in production at the Bradenton, FL, facility. This week the pump house structure was fabricated, and the fire pump began to receive valves and plumbing. Next week the chassis may arrive, and the pump house structure may remain in staging. The fire pump should continue to receive valves and plumbing and the body should begin fabrication.
