

# In-Production Photo Album for Milwaukee Area Technical College, WI Job 37934 July 14, 2023

This week your cab and pump house and body were installed on the frame. In the next report your apparatus may continue initial assembly.

The background of the slide features a faded image of a red fire truck chassis on the left and a set of technical drawings on the right. The drawings include a top-down view of the chassis with various dimensions and a circular seal or logo in the center. The overall image is light and serves as a backdrop for the text.
